## **RAPHAEL VIMEO'S PROPOSAL**

We are planning to produce a Video of the Raphael Cartoons to match the one of Raffaello 1520 - 1483 Exhibition. This would produce two highly professional Videos which in total last about two hours and cover the highlights of an extraordinary life cut short when Raphael died suddenly at the age of 37. Rosa Maria will uncover the making of some of the well known Works of the maestro who, together with Leonardo and Michelangelo, best represent the Italian High Renaissance. Giving us a mini course of History of Art in two hours.

During this period of exceptional difficulties for businesses in the field of Culture and Tourism, such as ours, it is a problem for us to finance the project. You can really help us by purchasing two copies of each video (only one if you have already made a purchase) and in return we would send one copy to you and three to anyone of your choice giving us their email addresses.

Prices for the two Videos is £48 for Members/Friends and £56 for others.

All my best wishes,

***Rosa Maria***
